PRODUCT DESCRIPTION

Designer: Raimond Puts

Moooi Raimond II Zafu LED Pendant

The Raimond II Zafu Suspension was designed by Raimond Puts. Puts spent years working as a mathematics professor and machine designer, and utilised this experience to create innovative designs. The geometric patterns throughout the Zafu reflect his interests in mathematical forms. The name Zafu is inspired by the pendant's transcendental shape.

Two interconnected spheres of stainless steel house numerous LEDs. When illuminated, the LED units produce an ambient glow that surrounds the suspension, mirroring the soft glow of a starry night. Display over a dining table or in a living room to create a welcoming and comfortable atmosphere. In large areas or commercial settings, the Raimond II Zafu Suspension can be installed in multiples to create a mesmerising display.

Please note: These lights are not dimmable via standard mains phase dimming. However, a Moooi wireless dimming switch is available to purchase separately, enabling you to dim your Raimond II fitting without the need for additional wiring. The Wireless switch comes with a dimmable module that is fitted inside the ceiling canopy. [Contact us](#) for more information.

PRODUCT SPECIFICATION

Light Source:	29W, 2500K, 1062 Lumens
