PRODUCT DESCRIPTION

Designer: Muller Van Severen

HAY Arcs Pendant Light

The HAY Arcs Pendant was designed by Belgian artist duo Fien Muller and Hannes Van Severen in 2021. Their award winning designs feature in museums and galleries across the world as they describe their work as sitting somewhere between art and design. By drawing on their passion for architecture and materials, the duo wish their designs to be a celebration of colour and material. This is done beautifully with the HAY Arcs ceiling light which is available in four vibrant finishes which are Auburn Red, Sea Green, Cobalt Blue and Mirror. All four finishes have a glossy reflective surface that play with the natural light in their surroundings.

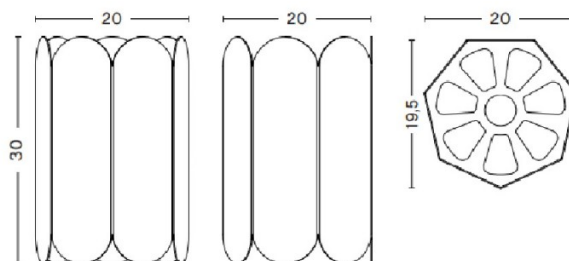

Providing a soft ambient light, the ceiling lamp is formed of a continuous chain of curved arches that form a single element. This sleek yet playful pendant light design is perfect for over a dining table or work surface and adds a splash of colour to any interior.

Please note, the cord set for this product is also available in White, Grey, Red, Green, Yellow, Lilac and Navy. [Contact us](#) for pricing and information.
