PRODUCT DESCRIPTION

Designer: Robert Dabi

Poise LED Table Lamp by KDLN

The Poise table lamp was designed by Robert Dabi in 2021 for KDLN. An expression of minimalism and interaction, this table light is defined by a circular diffuser, which has an integrated LED light source, and a slim stem and base that delicately hold the circle. The stem can be moved from side to side and the diffuser can also move by itself, giving you countless possibilities and functions.

The Poise table light is available in a black colour finish and embodies a tangent and circle, being thoroughly contemporary for homes and professional settings. The table lamp comes with a dimmer switch so you can control the light setting and is the perfect solution for an ambient and effective glow. Use on tables, desks, side tables and more.
