PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Talia LED Table Lamp

The Talia table lamp is multiple-task-orientated whilst maintaining its sleek and simplistic design. This modern design by Pablo boasts 'maximum light control' with an integrated dimmer switch allowing you to fully dim the light source with ease. The LED flat panel creates a clean bright glare-free light that is ideal for focused tasks. However, with the 360° post rotation and 180° shade rotation, this Pablo LED table lamp can satisfy both task and ambient lighting needs.

With its task-orientated focus, the Talia design features a **wireless induction charger** on the base to allow you to charge your smart devices without the use of a cable. The Talia LED table lamp also features a handy **USB port** in the back of the base for added convenience. Although the base of the lamp homes many added features, it does not take up too much space. The minimal footprint of this table lamp is ideal for compact spaces such as busy desks or small bedside tables.

When creating this product, Pablo Designs kept sustainability and longevity in mind. This is clear within the materials used that contain no hazardous substances and are 97% **recyclable**. The whole product can also be completely disassembled which makes it easy to fix or transport. The LED light source is also highly energy-saving and has a life span of 50,000 hours or 25 years of daily use. However, in order to save electricity, this Pablo table lamp also comes with a 6-hour energy-saving auto-off timer feature.

PRODUCT SPECIFICATION

Light Source: 6.8W, 3000K, 350 Lumens

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Height: 39.5cm
Width: 9.9cm
Depth: 16.3cm
Cable Length: 183cm
