PRODUCT DESCRIPTION

Parachilna Lighto T LED Pendant Light

This Parachilna LED pendant light uses a classic design but with a modern twist. The bell-shaped shade has been an iconic feature of pendant lights for decades due to its generous outpouring of light and glare-free quality. The bell-shaped shade also provides an unobstructed downward functional light ideal for above tables or workspaces.

However, the designer of the [Lighto collection](#), Jaime Hayon, has brought this classic design up to date with sleek finishes and steel structuring. The metallic finishes are available in a glossy golden and a black chrome. Both of these finishes add a luxurious feel to the shade and add a modern touch to any space. The matt black steel structure at the top of the shade suggests an industrial influence to this design.

Available two sizes, a smaller Ø10cm shade and a larger Ø15cm shade. The two sizes allow you to find the perfect size for your space. You even have the choice to cluster the alternating shades and create a stunning feature within your home. The Lighto T pendant has unwavering possibilities as its simplicity and elegance bring a designer touch to your interior.
