PRODUCT DESCRIPTION

Designer: Verner Panton

Verpan VP Globe Brushed Aluminium Pendant Light

The VP Globe brushed aluminium pendant is the newest addition to the VP Globe range designed by Verner Panton, an iconic Danish designer who has created a reputation for experimentation and exuberant originality. This new brushed aluminium finish creates a more industrial style that brings the VP Globe into a more rustic design. The touches of burnt orange on this VP Globe reflect beautifully off the brushed aluminium and create a warm orange glowing light which provides a warming and comforting atmosphere.

Ideal for a dining or living space, this incandescent and ambient light will create the perfect atmosphere for relaxation and socialising. The harsh brushed aluminium paired with the burnt orange creates a talking point within a room whilst bringing a touch of designer flair to your interior. The VP Globe brushed aluminium may be the newest product in the VP range, however this Verpan pendant maintains the classic design and look of an original Verner Panton design.
