PRODUCT DESCRIPTION

Grant Table Lamp by Nordlux

The Grant table lamp has a beautiful curved metal stem paired with a spherical glass lampshade. The stunning opal white orb sits delicately at the end of the stem, almost resembling something out of nature as it hangs gracefully. The metal structure also adds modernity to the design, creating a robust and strong look, contrasting with the graceful globe.

The Grant table light is available with either a brass or black colour finish and provides a warm and diffused glow. The illumination fills the room and can act as an effective atmospheric light, whether used by a chair in your lounge or on a dressing table in your bedroom. Suitable for a wide variety of settings, this table lamp will bring a touch of elegance and refinement to your interior.
