PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ginger C LED Outdoor Wall Light

Marset Ginger C LED Outdoor Wall Light is an IP65 exterior wall light by Joan Gaspar, developed from the Ginger collection for outdoor use. The design keeps the familiar circular Ginger profile, but uses a painted aluminium diffuser instead of the wood used on the indoor versions. The light source is hidden behind the shade, so the light is reflected back onto the wall rather than shining directly outwards.

Ginger C can be used as a single exterior wall light or arranged in groups where a larger wall needs more presence. The smaller 15C and 20C sizes work well in passageways, beside doorways, and on narrower exterior walls, while the larger 32C, 42C, and 60C versions suit patios, garden walls, entrances, and outdoor seating areas. Black / White gives the fitting a clean contrast, while Rust Brown / White adds a warmer tone to the exterior finish and gives the reflected light a deeper character.

The integrated 2700K LED gives warm light, and the IP65 rating makes the fitting suitable for outdoor use. The Ginger 15C and 20C require a remote power supply, while the larger sizes are dimmable using leading-edge and trailing-edge dimming. Most suited to entrances, passageways, garden walls, patios, terraces, pathways, restaurants, hotels, and exterior seating areas where a low-profile outdoor wall light can provide reflected light.

Please Note: The Ginger 15C and Ginger 20C require a remote 24V power supply, ordered separately. Selected Ginger C sizes can also be supplied with 3000K, DALI-2, and Casambi options. Please [contact us](#) for more information and pricing.

PRODUCT SPECIFICATION

Light Source: **15C:** 5W, 2700K, White 67, Rust 27 **20C:** 5W, 2700K, White 161, Rust 29
32C: 9W, 2700K, White 350, Rust 81
42C: 19.71W, 2700K, White 698, Rust 186
60C: 26.09W, 2700K, White 1165, Rust 245

IP Code: 65

Dimming: **Ginger 15C and Ginger 20C:** Dimmable depending on the purchased power supply.
