PRODUCT DESCRIPTION

Designer: Big-Game

Muuto Top Pendant Light

The Muuto Top Pendant was designed by Big-Game Studio which was launched in 2004 and is made up of three individuals based in Switzerland. This design is described as a 'contemporary re-interpretation of the archetypical cone-shaped pendant'. This versatile series of pendants offers a vast range of opportunities and combinations of both sizes and finishes. Available in four sizes and four colours, there are endless combinations and configurations that you can use to personalise your space in your home or commercial area.

The spun aluminium material has a glossy, powder-painted finish that accentuates its sleek and friendly silhouette. The Big-Game studio has designed the Top pendants with their take on a lamp traditionally manufactured with an E27 bulb in mind. This led them to reimagine a classic and instead use a GX53 light source that offers a uniquely glare-free light enabled by the proportions and angle of the shade. Place this pendant light above your dining table, kitchen counter, or workspace to add a glare-free simple and stunning addition to your home.
