PRODUCT DESCRIPTION

Designer: Says Who

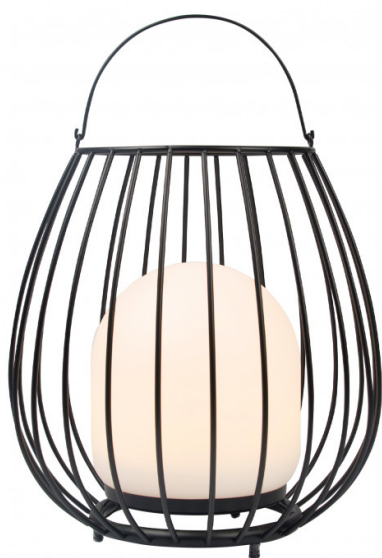

Nordlux Jim To-Go Portable LED Lamp

Designed by Danish design duo Says Who, the Jim To-Go harbours a rounded silhouette frame with an LED integrated light source in the centre, the three legs make this lamp perfect for patios or decking in your back garden. The Jim To-Go also includes a practical handle that makes it easy to manoeuvre and place wherever you need it - it also can be used as a suspension to hang this portable light like a lantern in your outdoor space.

This LED portable lamp emits a warm glow over its surroundings, perfect for colder evenings sitting around an outdoor fire, as the early nights draw in, or during summertime when the warm evenings lead late into the night time. The Jim To-Go can be used individually or grouped together in bigger spaces to create an expressive feature.

The built in Moodmaker™ dimmer offers three light intensities. The light intensity can be set to either 20%, 50% or 100%. The IP54 classification makes it ideal for outdoor settings - perfect to set the right ambience on the terrace, balcony or in the garden.
