PRODUCT DESCRIPTION

Designer: ADDI Design Studio

Orsjo Belysning Sun LED Wall Light

The Sun LED Wall Light by Orsjo Belysning was designed by ADDI Design Studio, and was inspired by the rise and setting of the sun. The contrast between the rounded diffuser and the sharp square base is striking, this differentiation is further enhanced by the variation between the two materials - the rounded and blurred glass makes a perfect match with the raw square brass. Sun is a wall light with an integrated LED light source that produces a soft indirect light along the wall and around the lamp itself. The LED is also dimmable, making it possible to personalise your environment, Sun provides a beautiful ambient lighting.

Orsjo Belysning Sun Wall Light has an IP44 certification, making it a gorgeous addition to contemporary bathrooms. Utilise it alongside your bathroom mirror or make the most of the soft illumination to highlight the most important areas of the room.
