PRODUCT DESCRIPTION

Designer: Massimo Minale

The Buster and Punch Caged Wet Ceiling Light

The Buster and Punch Caged Wet Ceiling Light features a matt black metal box-shaped frame, which is a common feature in the Caged collection, but also boasts a Polycarbonate casing which protects the bulb from any moisture, providing an IP44 rating and allowing for use in bathrooms, poolside areas, spas, and outside spaces. The slender profile of the light also means it can be displayed in hallways, too.

The back panel of the Buster and Punch Wet Ceiling Light comes in three metallic colours granting you the choice between brass, steel or gunmetal, and utilises the Buster + Punch signature coin screws for detail. This minimalistic light features the brand's signature diamond cut knurling on the lamp holder to fit its designer LED Puck Bulb, which is also provided. The Buster + Punch Caged Wet Ceiling Light is designed not only to add a touch of sleek industrialism when utilised individually but also to make a statement when displayed in clusters.
