Lamp**

Nemo Lighting Albin AM/AS AM1N Table Lamp symbolises the rational ideology of the Milanese architect, Franco Albini who made the design in 1969. He designed the shade so it combines smooth surfaces with extremely high-quality materials, such as hand-blown glass and steel. This versatile lamp can be used in both a commercial setting such as an office or in a residential setting as a bedside table lamp.

Albin AM1N Table Lamp is a minimal bubble-like shade attached to a steel tube and base which is also available as a suspension light, wall light, floor lamp and pendant. The lamp emits a warm glow which shines upwards onto the ceiling. The table lamp is available in a steel or black base finish.
