PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Totem LED Table Lamp

The Pablo Totem LED Table Lamp was designed by Pablo Pardo for Pablo Studio. The Totem table lamp is a versatile LED lamp made from a mouth-blown glass shade and body. Totem's pure white geometric structures give a charming interplay of unique and rhythmic shade groupings to add warmth and elegance to any area whether this be residential or commercial. Totem emits a soft and ambient glow which comes standard with fully dimmable 2700K LED technology with a rotary dimmer. Pablo designed the Totem with a dual LED light engine assembly that rigidly secures the upper and lower shades for easy assembly.

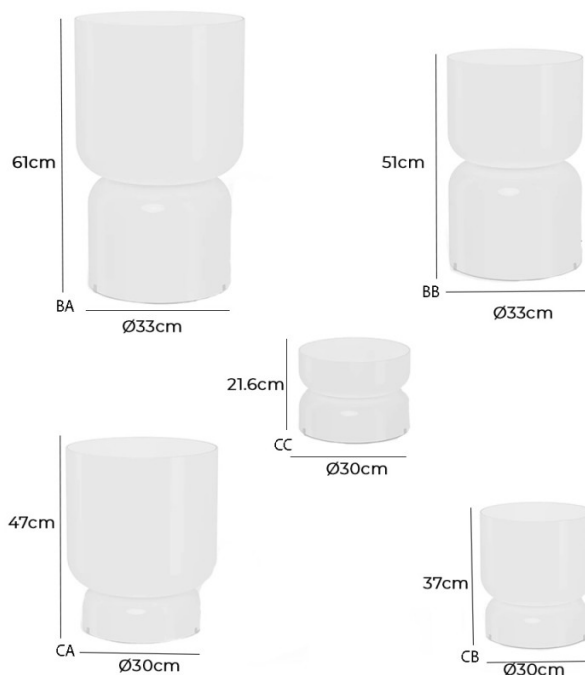

Pablo Totem LED Table Lamp is available in five different sizes which range from 21.6cm to 62cm in height and the base ranges between Ø 33cm to Ø 38cm in diameter. The table lamp cable is wrapped in fabric and is 305cm long. 95% of the materials used to make the Pablo Totem lamps are recyclable for sustainability reasons. The lamps have a life span of approximately 50,000 hours or 25 years of daily use.

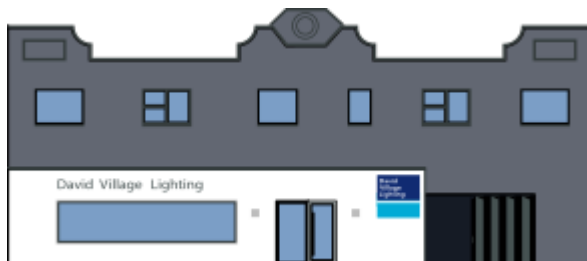

PRODUCT SPECIFICATION
