PRODUCT DESCRIPTION

Designer: George Nelson

HAY Nelson Propeller Bubble Pendant

HAY Nelson Propeller Bubble Pendant was created by designer, George Nelson. This minimalistic pendant was motivated by a set of Swedish silk-covered lights that George Nelson became captivated with; however, the pendants were very expensive and unavailable to Nelson. Using a spray-on webbed polymer material on top of a metal skeleton frame, Nelson created his version of the lights to feature in his home and office.

Nelson Propeller Bubble Pendant creates an ambient glow when switched on and a striking visual element when switched off. Thoughtfully designed, this off-white Propeller Pendant can be featured in both a residential and commercial setting for a timeless element. The [Nelson Bubble Collection](#) consists of a variety of different shaped pendants and a wall lamp.
