Designed by Iskos-Berlin, the Muuto Under The Bell Pendant forms its own space when switched on, whether it's placed above your dining table, your living room or in a commercial space. The warm ambient illumination combined with the soft felt textile used for the shade, allows it to blend effortlessly in any space - a simple design yet modern and multi-functional.

The material itself is made of recycled plastic bottles, while the bell-shaped shade allows the pendant to absorb sounds and enhance the acoustics of the room. This lighting solution can be displayed individually or in clusters or linear rows to make more of a statement. Under The Bell is also available in a [larger version](#) in 82cm which is ideal for larger spaces.
