PRODUCT DESCRIPTION

Designer: Erwan Bouroullec

Flos Emi LED Table Lamp

A 2024 addition to the brand's collection, the Flos Emi LED Table Lamp was designed by Erwan Bouroullec and consists of a triangular cylinder housing three LED modules. These modules are concealed within the structure, producing a reflected light and downlight that can be easily controlled via an integrated dimmer. Appearing to be speared onto the slender central point, Emi is kept sturdy via a triangular base, ensuring full functionality whilst remaining true to its design.

The minimalistic yet unique design can adapt to a range of personal styles in almost any contemporary interior. The Emi LED Table Lamp by Flos softly illuminates the surrounding space and provides a calming ambience; it makes a statement no matter where it's displayed.
