PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt LED Pendant

**EX-DISPLAY IN NEAR PERFECT CONDITION.
BOXED IN A-GRADE NON-ORIGINAL PACKAGING FOR A
DIFFERENT FINISH.**

1 x Opal/Gold Available.

The iconic Tom Dixon Melt Pendant's polycarbonate shade is injection blow moulded. The unique optical display of the gold, copper, smoke, and chrome finishes is created via a vacuum metallisation process, which makes the pendant mirrored when switched off. When switched on, the pendant transforms to take on the mesmerising appearance of molten glass. In Spring 2024, Tom Dixon released a new Opal finish, designed for those who love the Melt collection but require an enhanced luminosity. Opal Melt is available with either a gold suspension kit and ceiling canopy. The Opal finish is reminiscent of natural pearls when switched off and provides an ethereal, opalescent glow when switched on.

Please Note: The integrated LED light engine of the Melt Pendant is replaceable. This can only be sourced via Tom Dixon. Please [contact us](#) for more details and pricing.
