PRODUCT DESCRIPTION

Designer: Ronan Bouroullec

Flos Luce Sferica LED Suspension

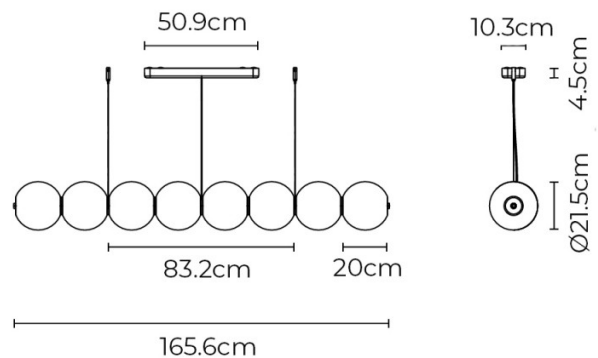

We currently have one Luce Sferica Suspension in stock.

French designer Ronan Bouroullec created the Luce Sferica Suspension for lighting brand Flos. Bouroullec expertly combines elegance with functionality for an innovative yet sculptural suspension. The horizontal body is made from extruded aluminium, which houses two LED strips. Hand-blown glass spheres encase the body, giving the luminaire a delicate, almost weightless appearance.

The ornamental aesthetic of the Luce Sferica Suspension adds a decorative touch to any room, even when not in use. When illuminated, the LED strips provide upward and downward lighting. The glass globes diffuse the light into a soft, ambient glow, perfect for creating a comfortable and inviting atmosphere. An integrated dimmer on the product allows users to easily adjust the light intensity to suit any environment. In commercial settings, the Luce Sferica Suspension is well-suited to restaurants and boutiques for an elegant touch that creates a welcoming ambience. Display individually or in multiple parallel rows to fill larger interiors.

PRODUCT SPECIFICATION

Light Source:	110W, 2700K, 5345 Lumens
IP Code:	20
Dimming:	Direct Touch control dimming/Direct Touch control switching + push to make dimming control. Direct Touch control switching + DALI dimming control.
Dimensions:	Length: 165.6cm Width: 10cm Cable Length: 270cm
