PRODUCT DESCRIPTION

Designer: Louis Weisdorf

Gubi Multi-Lite Wall Light

Evolving Weisdorf's 1972 idea into a wall format, the Multi-Lite Wall Light pairs a compact shade assembly with a neat wall arm to deliver adaptable light in tight footprints. The twin quarter-sphere shades rotate around the inner ring, so you can tilt illumination upwards for a soft wash, downwards for reading, or offset the shells for asymmetric effects. The result is both functional and expressive, a sculptural accent that shifts character with a simple hand adjustment and brings a warm, comfortable ambience to bedrooms, lounges and hallways.

The arm adds further reach and placement flexibility, ideal for bedside tasks or framing a mirror. Finishes include combinations of brass, chrome, black brass, black and white, allowing you to match hardware tones across a scheme. compatible for both a cable and plug setup or for hardwiring, use singly as a focused reading light, in a pair, either side of a headboard, or in a rhythmic row along a corridor for a refined, mid-century feel.

Please note, this product comes with both the option of hardwiring and a cable & plug installation.

PRODUCT SPECIFICATION

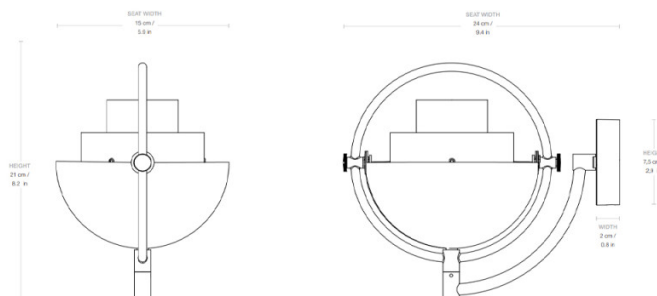

Light Source: 1 x Max 6W G9 LED (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Height: 21cm
Width: 15cm
Depth: 24cm
Wall Mount: Ø7.5cm
Wall Mount Depth: 2cm

Cable Length: 200cm
