PRODUCT DESCRIPTION

Designer: Chia-Ying Lee

Lodes Random Pendant Light

**BRAND NEW, OVERSTOCKED, ORIGINAL PACKAGING.
1 x Clear Available.**

The Random pendant was designed by Chia-Ying Lee in 2017 for Lodes. A lively and fun light, the pendant is made from 3 spherical glass diffusers, each a different size with different length cables to give the impression of randomness and frivolity. Each sphere is made from blown glass, with a layered paint finish which makes the sphere appear metallic when switched off. The sphere then appears beautifully faded when switched on, creating a warm and colourful effect. The built-in LED light produces a warm white glow, which is diffused, creating both a spread illumination and a downward light.

Please Note: The Lodes Random Pendant is supplied with a white ceiling canopy.
