New Works Kantarell LED Floor Lamp

The Kantarell Floor Lamp is a distinctive piece created by Norwegian designer Falke Svaton. Svaton studied directing light before creating the Kantarell and uses a trumpet-like shape to act as a funnel at the centre of the lamp. The resulting floor lamp features a contemporary silhouette that blends elegance and technical expertise. Kantarell is available in two finishes, either Nickel/White or Black/White, and is a distinct lighting solution with timeless potential.

When illuminated, the reflector functions as an inverted funnel, spreading light from the centre into a soft, even glow. The light source at the centre is almost hidden for a gentle, glare-free lighting. An integrated button ensures a smooth interaction when switching the lamp on and off. With a dimmable function, users can easily adjust light intensity to suit any environment. The warm glow emitted from Kantarell is perfect for creating a comfortable ambience beside a sofa in a living room or in a dining room.

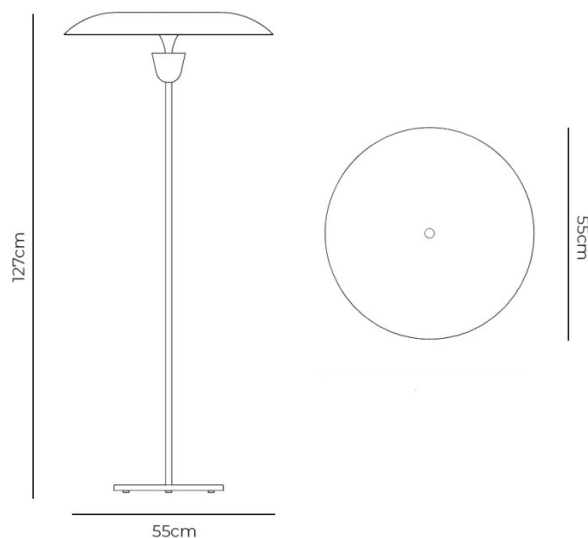

PRODUCT SPECIFICATION

Light Source: 12.1W, 2700K, 1000 Lumens

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Height: 127cm
Width: 55cm
Cable Length: 150cm
