PRODUCT DESCRIPTION

Designer: Ernesto Gismondi**Artemide Nur 1618 LED Pendant Light**

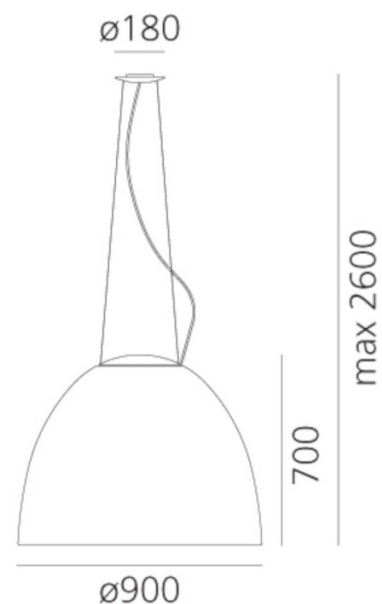

Artemide Nur 1618 LED Pendant Light takes the Nur form into a broader suspended format, using a monolithic body with carefully controlled lines that keep the source out of direct view. Designed by Ernesto Gismondi, it provides general ambient lighting through direct and indirect diffused emission, giving the larger fitting a calmer effect than its scale might suggest.

The difference here is mainly one of scale. Nur 1618 keeps the same overall character as the rest of the family, but the broader body and higher integrated output make it better suited to larger interiors where the pendant needs to hold more space visually.

Artemide Nur 1618 LED Pendant Light is available in Anodised Aluminium and Anthracite Grey. Its larger body, integrated LED, and broader spread of light place it differently from the smaller pendants in the range, while still keeping the same restrained silhouette. Best suited for open-plan living spaces, larger dining areas, entrance halls, and hospitality interiors where a pendant can provide general ambient lighting with a stronger overhead presence.

PRODUCT SPECIFICATION

Light Source:	80W, 3000K, 4308 Lumens
IP Code:	20
Dimming:	Push to make/switch dimming, dimmable using push-to-make switches. Please consult your electrician; additional wiring may be required on-site.
Dimensions:	Height: 70cm Shade: Ø90cm Base: Ø18cm Cable Length: 260cm
