PRODUCT DESCRIPTION

Designer: Foster and Partners

Artemide Hoy 90 LED Semi-Recessed Spotlight

Artemide Hoy 90 LED Semi-Recessed Spotlight is an adjustable ceiling projector by Foster + Partners Industrial Design. Its cylindrical body sits partly within the ceiling and extends below the surface, creating a simple architectural form with a high degree of flexibility. The spotlight can tilt through 90° and rotate through 360°, allowing its direction to be adjusted around the room.

Four beam angles are available to suit different lighting requirements. The focused 13° and 24° options can be used to highlight artwork, displays, shelving, or architectural features, while the wider 50° and 67° beams distribute light across a broader area. The larger 90mm format provides a higher light output than the more compact Hoy 65 version.

Each version includes the required non-dimmable driver and trimless installation frame. The integrated LED produces warm 3000K light with a CRI of 90. It works well in kitchens, living rooms, hallways, galleries, shops, hospitality spaces, and other interiors where the direction of the light may need adjusting.

Please Note: The Artemide Hoy 90 LED Semi-Recessed Spotlight is also available in 2700K and 4000K colour temperatures. Optional accessories include a honeycomb, soft filter, lens for elliptical emission, alternative trim frames, and dimmable drivers. Please [contact us](#) for more information.

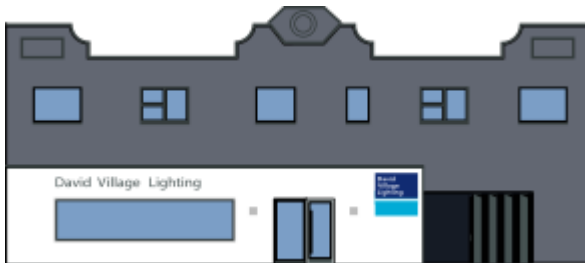

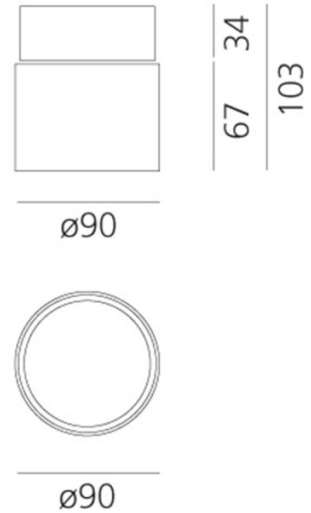

PRODUCT SPECIFICATION

Light Source: **13°:** 19W, 3000K, 2053 Lumens
24°: 19W, 3000K, 1924 Lumens
50°: 19W, 3000K, 1915 Lumens
67°: 19W, 3000K, 1784 Lumens

IP Code: 20

Dimming: Non-Dimmable.

Dimensions: Height: 10.3cm
Fixture: Ø9cm
Recessed Depth: 7cm
