PRODUCT DESCRIPTION

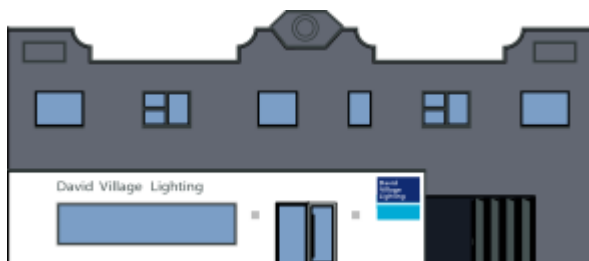

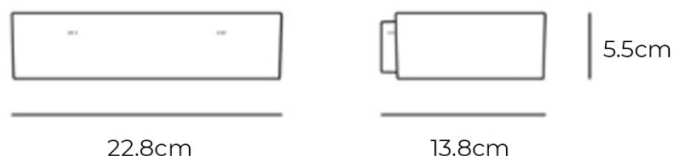

Designer: Pio & Tito Toso

Artemide Melete Wall Light

The Artemide Melete Wall Light is a minimalistic 2011 design by Italian brothers and architects, Pio and Tito Toso. Melete is made from a single piece of die-cast aluminium, an architectural design which interacts with the interior architecture of any setting. Its simple white finish allows it to blend seamlessly into any decor and can be used in both residential and commercial interiors.

The interior part of the Artemide Melete Wall Light is carved, and the inner light source produces both indirect and direct illumination. A stunning addition to kitchens, hallways, corridors, dining rooms and reception areas. This is the retrofit version of the Melete, but an [integrated LED version](#) is also available.
