PRODUCT DESCRIPTION

Designer: Louise Campbell

Louis Poulsen LC Shutters Pendant

Louise Campbell designed the Louis Poulsen LC Shutters Pendant, which is a very unique and comforting light. The shade is made from 2 layers that are pressed and cut to produce a vintage pattern that is eye-catching and delicate. The shade of the LC Shutters is shaped into a beautiful bell silhouette, creating an even more elegant design. The light source is also concealed by an inner glass diffuser to create an even, soft glow.

The Louis Poulsen LC Shutters Pendant emits a warm light that escapes from the top and bottom and through the pattern to create an overall illumination that is perfect for many different types of settings. Particularly good for hanging over tables, especially over dining tables, the LC Shutters Pendant Light can be used in homes and commercial settings, alone or in multiples.
