PRODUCT DESCRIPTION

Designer: Joost van Bleiswijk

Moooi Construction Lamp

Joost van Bleiswijk created the Construction Lamp Collection by merging his interest in vintage construction toys with his expert design skills. Using industrial tools, the lamp's details and joints are reminiscent of a traditional electricity pole. The Construction Floor Lamp is available in two sizes and two finishes: matt black with brass screws or matt white/wood with brass screws. These bold colourways complement the clean, industrial aesthetic of the lamp, giving it a timeless appearance.

The bent steel shade creates a wide dispersion of light, directed upwards and downwards, while the reflective interior of the shade creates a warm glow that surrounds the lamp. An in-line dimmer included on the cable allows the user to adjust brightness intensity to suit any environment. With a bold presence and effective dispersion of light, the Construction Lamp is well-suited to light a living room or office space. Like the vintage construction toys and scaffolding it references, the Construction Lamp is hand-assembled by expert craftsmen.

PRODUCT SPECIFICATION

Light Source: **Medium:** 2 x Max 75W E27 (Excluded)
Large: 4 x Max 75W E27 (Excluded)

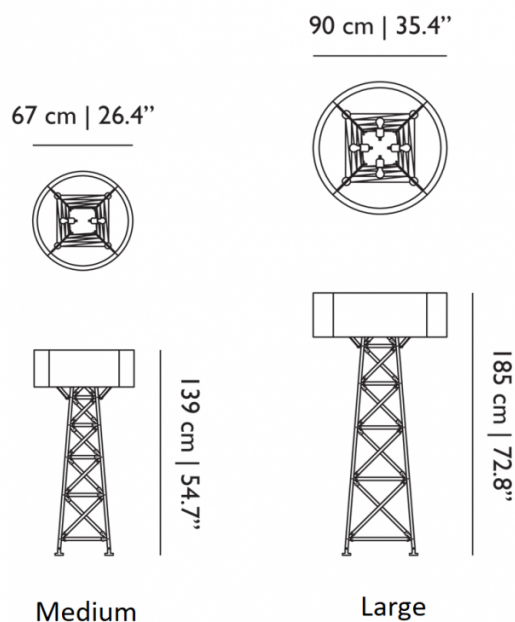

IP Code: 20

Dimming: In-line dimmer included on cable.

Dimensions: **Medium:**
Shade: Ø67cm
Height: 139cm

Large:
Shade: Ø90cm
Height: 185cm

Cable Length: 300cm
