PRODUCT DESCRIPTION

Designer: Eugeni Quitllet

Light Air Pendant Light by Kartell

The latest addition to the Light Air family, the pendant light with an illusion effect, like a suspended ballerina dancing mid air. The pendant, as with the rest of the family, is available in a crystal-like or soft fabric version.

The crystal makes the Light Air light a more precious and elegant designer light. The pendant retains all the essential and modern characteristics with a magical touch. The framework is made of polymethacrylate, the most transparent of plastics. And the lampshade is a conical parabola the diffuses light within the structure.

You can select between a sculptured, crystal-like version in blue, pink, transparent and pink or a soft fabric version in beige. The Light Air family also includes a [table lamp](#) and [wall light](#).
