PRODUCT DESCRIPTION

Designer: Bertjan Pot

Moooi Prop Light Round Single Suspension

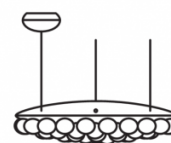

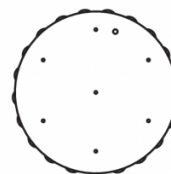

The Prop Light Round Single Suspension was created by Dutch designer Bertjan Pot. Pot is known to experiment with different materials, leading him to new and innovative creations. The Prop Light is a perfect example of this experimentation. Through the innovative use of LEDs, a total of 48 LEDs sit on a disc-shaped frame. Each LED is housed within a glass bulb, giving the appearance of a traditional incandescent light bulb while offering the sustainability of modern LEDs. This extravagant display makes the Prop Light a decorative piece, even when not in use.

When illuminated, the LEDs produce a bright and even glow that fills the room with a cosy ambience. This functional lighting is ideal for use above surfaces such as kitchen islands, countertops, or office desks. In commercial spaces, install the Prop Round Single Suspension in hospitality settings to offer a welcoming atmosphere to restaurants, cafes, and hotels. Install the Prop in clusters with other pieces from the [Prop Collection](#) for an extravagant, eye-catching display.

PRODUCT SPECIFICATION

Light Source: 21W, 2700K, 1078 Lumens**IP Code:** 20**Dimming:** Dimmable via trailing edge dimming.**Dimensions:** Ø73cm
Height: 19cm
Ceiling Canopy: 16 x 8cm
Cable Length: 400cm

73cm | 28.7"

19cm | 7.5"
