PRODUCT DESCRIPTION

Designer: Box Arkitekter

Orsjo Belysning PJ60 Table Lamp

The PJ60 table lamp was inspired by the 1940's work of PeFeGe Eriksson and their industrial work lamps. Box Arkitekter updated this classic design to meet modern day needs. The lamp hosts an easily adjustable arm that generates extensive movement - creating a direct light source and making it a perfect task light in your home or office. The PJ60 has soon become a workplace staple, it is beautifully crafted and has truly stood the test of time.

This lamp is also available with a table clamp base at an additional cost, [get in contact today](#) for more information. The table clamp securely fits onto your desk, saving space but still guaranteeing an effective work light.

The purpose of these task lights is to create a comforting direct light that is perfect for workspaces without being too clinical or harsh. And this is why the PJ collection soon became an office classic. [Explore the PJ collection today.](#)
