PRODUCT DESCRIPTION

Designer: Ernesto Gismondi

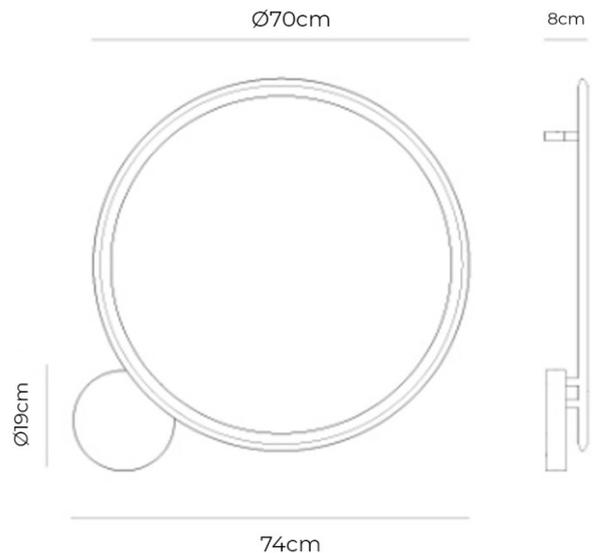

Artemide Discovery Wall Light

When Artemide's technological know-how and Ernesto Gismondi's ingenious designs meet, you get a unique light, such as the Discovery Wall Light, an almost imperceptible and immaterial element. The luminaire is almost invisible when not switched on, with a slim aluminium rim that hosts the LED strips and which will fill the PMMA transparent surface uniformly with light.

The Artemide Discovery Wall Light translates innovation into a surprising solution, providing direct and indirect illumination that can be used as accent lighting or as a feature in a range of interiors. A perfect addition to residential and commercial spaces, especially in hallways, kitchens, dining areas and living rooms. Discovery's metal frame is also available in three contemporary finishes: black, bronze or aluminium, allowing it to adapt to a variety of interior aesthetics and personal styles.
