Astro Chios 80 Exterior Wall Light

The Astro Chios 80 Wall Light is a compact exterior wall light with a simple, understated form that works well across both indoor and outdoor settings. Its smaller scale makes it a practical choice for entrances, garden walls, patios and pathways, while the textured finish options allow it to either blend into the surrounding architecture or provide subtle contrast.

Rated IP44, Chios 80 is suitable for outdoor use as well as bathroom zones 2 and 3, making it a versatile option for projects that need a neat, durable wall light. Available in textured black, textured grey and textured white, it can be used across a range of residential and commercial environments. It is also suitable for mounting on flammable surfaces.

Chios 80 uses a GU10 lamp, sold separately, and is dimmable when paired with a compatible dimmable bulb. Made from zinc, it is designed to cope with more demanding exterior conditions and is suitable for installation within five miles of the coast, making it a stronger option for harsher environments than many standard outdoor wall lights.

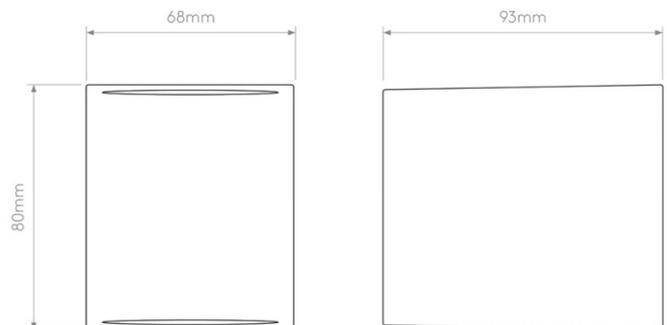

PRODUCT SPECIFICATION
