PRODUCT DESCRIPTION

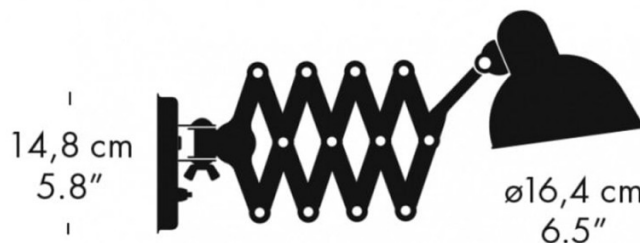

Designer: Christian Dell

Fritz Hansen Kaiser Idell 6718 Wall Light

The Kaiser Idell 6718 Wall Light is part of the [Fritz Hansen Kaiser Idell Collection](#), a range that was first developed in 1931 by Christian Dell. Like the other lights in the collection, this wall light is characterised by its sleek and oval-shaped lampshade and stunning swivel joints. Unlike any other lighting solution in the collection, the shade has one side that is significantly longer than the other to produce a downward light that isn't imposing and can be directed where needed.

This wall lamp has a lovely scissored arm, which means you can adjust the length between 47cm and 89cm. The shade can also swivel, meaning the Kaiser Idell 6718 Wall Lamp is incredibly versatile and functional. Perfect for tasks and reading, this wall light can be used in lounges, bedrooms and reception areas as an interactive light that can be utilised in many ways. Perfect for the home and professional settings, this lamp is beautiful and elegant and will amaze in any room.
