PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt Floor Lamp

A beautiful molten-like lighting solution, the Tom Dixon Melt Floor Lamp is injection blow moulded and finished with vacuum metallisation, resulting in a transfixing lighting effect when on and a mirror finish when switched off. For this reason, the Tom Dixon Melt emits an attractive, mildly hallucinogenic light and whether it is on or off it fills a room with ethereal magic and immediately catches your eye.

Available in a copper finish, this floor lamp can suit a wide range of modern interiors and its integrated on/off switch on the base of the lamp ensures ease of use. The [Tom Dixon Melt Collection](#) also includes pendants, table lamps, another floor lamp, a portable and wall lights. This floor lamp can be installed independently or combined with other items in the collection to generate a cohesive environment.
