PRODUCT DESCRIPTION

Tidelight Table and Floor Lamp by Petite Friture

The Tidelight lamp was designed by Pierre Favresse and is multifunctional, as it can be placed on the floor or on any surface to provide a warm light. The lampshade is made from glass which is hand-blown in a mould, making each lamp truly unique because of this process. The glass is thick and has a lined texture and the base has a simple cork to keep the lamp weighted down and balanced.

The Tidelight table and floor light is available in either a transparent or smoked finish, and can be used in many interiors, whether in a domestic or commercial setting. The lamp emits a soft and inviting glow, working perfectly to create a warm ambience that fills the room. Use in lounges, reception areas and bedrooms to add a stylish and intriguing aesthetic to the space.
