PRODUCT DESCRIPTION

Designer: Verner Panton

Verpan Series 430 Chair

The Verpan Series 430 Chair was a forgotten design by Verner Panton which was re-discovered in Panton's archive. Based on Panton's original drawings and notes, Verpan were able to re-imagine the beautiful design to modern standards. The Verpan Series 430 chair is described by the brand as having multipurpose use as it can be used in a home, a restaurant or an office. This modern chair is also highly adaptable as it can be customised to suit any desired mood, setting or occasion. By customising the upholstery and the frame, you have the freedom to create a personalised chair which is utterly timeless.

The sturdy simplicity of the Verpan Series 430 chair is a design trait of Verner Panton as his designs maintain functionality whilst remaining stunningly beautiful. Panton's aim for this design was for it to provide the same comfort as an armchair whilst also being stackable and easily moved. He achieved this through using a wide nestling backrest mounted on a slender elegant frame which allows for easy mobility. This mobility allows you to enjoy this beautiful design anywhere in your home.
