PRODUCT DESCRIPTION

Designer: Ake Hultgren

Orsjo Belysning Puck LED Wall Light

Designed by Ake Hultgreen in 1987, the Puck Wall Light brings a feeling of warmth into spaces. This piece was inspired by Scandinavian design and combines both rectangular and cylinder shapes. The light fixture is easily adjustable for a direct, yet not harsh, spotlight and boasts a simple design, easily blending into any interior style.

The Puck is a great work light, perfect for reading as it is easily dimmable, and would make a fashionable addition to any desk, workspace or even living room. This light also features a built in dimmer on the wall plate, meaning you can create the perfect ambience.

The Puck Wall Light is available with a plug and wall attachment, or is suitable to be hard wired.
