PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Small FL/Y by Kartell

This is the smallest FL/Y in the collection by Ferruccio Laviani for Kartell with a diameter of 38cm. Indicative of the Kartell mantra, expressing brilliantly the spirit of the brand with its colour variations and playful style. Described as a 'bubble of light' and available in a range of colourful translucent tones that work beautifully in clusters, this simple, dome shaped shade embodies the off-the-wall style and forward thinking of modern Italian design.

The shape of the shade is not perfectly hemispherical with the cut off below the central line, done purposefully by Kartell to collect the maximum amount of light. The Fly provides iridescent illumination, which works brilliantly over a dining table or kitchen counter either alone or as clusters.
