PRODUCT DESCRIPTION

Designer: Manuel Vivian**Axolight Bell Pendant**

Italian designer Manuel Vivian created the Bell Pendant for Axolight. Vivian reinterprets the classic dome shape for an original and dynamic piece. Its grand stature is tempered by soft lines and light fabric, considered details that ensure the pendant does not burden its environment. The steel frame is covered in pongé fabric, a flame-retardant material with sound-absorbing properties. Pongé boasts an Equivalent Sound Absorbing Area up to 4.63, allowing the Bell to reduce noise as far as 59%.

The Bell Pendant is an award-winning design, presented with the Elle Deco International Design Awards 2010 in the lighting category. The contemporary design is available in ten finishes: White, Warm White, Light Grey, Light Blue, Blush, Red, Gold Yellow, Green, Blue, and Black. Due to its size variations and finish options, the Bell fits a wide range of interiors and styles. The domed shade guides light into a downward-directed glow, perfect for illuminating work surfaces. This functional lighting, paired with the pendant's acoustic properties, makes the Bell an ideal lighting solution for office spaces or restaurants. In the home, display the Bell Pendant above a dining table or kitchen island to add warm lighting and a burst of colour into the room.

The Bell Pendant is available in ten bold finishes, including White, Blue, Red, Green, Yellow and Black. [Contact us](#) for more information and pricing.

PRODUCT SPECIFICATION

Light Source: **Bell 45 & Bell 60:** 1 x Max 17.5W E27 LED (Excluded)
Bell 90: 4 x Max 17.5W E27 LED (Excluded)
