PRODUCT DESCRIPTION

Designer: Jean-Louis Frechin

La Lampe Frechin Table Lamp by DCW éditions

The La Lampe Frechin table lamp is a new release from DCW éditions and was designed by Jean-Louis Frechin. The table lamp was created in exploration of modern LED technology and how it can be transformed into a magical object, a mysterious tube that looks scientific, luminous and poetic.

The La Lampe Frechin table light is made from glass that contains the LED light source and is held by a metal and marble base which is finished in beautiful black and gold. The table light can be positioned in 2 places thanks to the contactors on the base and has a 3 step dimmer so you can create the atmosphere you like. A mesmerising and truly timeless piece, the La Lampe Frechin will add a touch of grace and fascination to your interior.
