PRODUCT DESCRIPTION

Designer: Verner Panton

Verpan Fun-2DM Suspension

The Verpan Fun-2DM Suspension was designed by sought-after interior designer Verner Panton with his aim of re-thinking the ways we live, work and meet. His holistic approach to design lead him to create the Verpan Fun-2DM Suspension which has quickly become a design classic. The delicately strung seashell discs hang in a cascade from two metallic rings and, when in motion, create a unique chiming sound which has being iconic to the Verpan brand.

The seashells not only create an elegant beauty but also act as a natural diffusing shade that allows for a generous outpouring of light. This functionality paired with imagination and organic shapes is a clear example of Verner Panton's ability to be at the forefront of innovation.
