PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 2/1 Pendant Light

The Louis Poulsen PH 2/1 Pendant originates from a three lampshade design by the renowned Poul Henningsen back in 1925-1926. He sought to create a light that could evenly distribute the light whilst creating soft shadows and being glare-free. Working with Louis Poulsen until his death in 1967, this spiralled lampshade structure, as seen in the PH 2/1 Pendant, has now been used in countless combinations and configurations.

This luminaire provides a lovely, warm glow that is effective in the room and will create a comfortable atmosphere. The longevity of the design makes the pendant an instant classic, being a true hallmark of vintage design that will catch the eye in your space. Available with either a brass, black or chrome finish paired with a white opal glass lampshade, you can use the pendant lamp in a wide variety of settings, alone or in multiples, for a timeless touch.
