PRODUCT DESCRIPTION

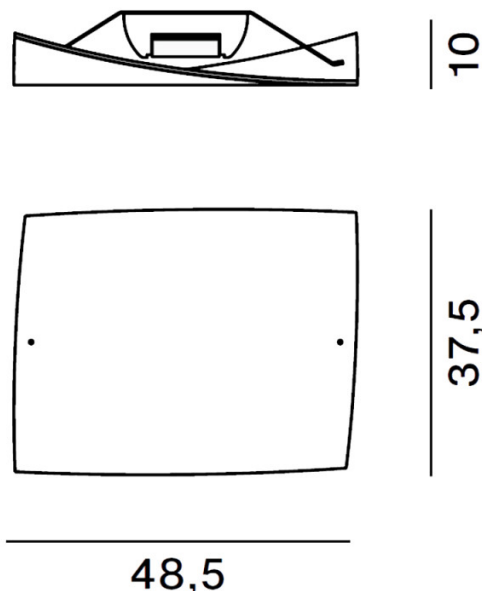

Designer: Carlo Urbinati & Alessandro Vecchiato

Foscarini Folio Ceiling Light

The Folio Ceiling Light was designed by the founders of Foscarini in the early years of the lighting brand. Inspired by a simple form, this ceiling light resembles a piece of paper which is being stretched at the corners. The corners turn upwards toward the ceiling, creating slight movement in a seemingly 2D shape.

Elegant and uncomplicated, the Folio ceiling lamp comes in a subtle white finish, being able to seamlessly fit in with any colour scheme in your interior. The light source is concealed in the metal mounting plate which then reflects off the glass diffuser and the ceiling to create a warm and effective glow. Suitable for both homes and commercial settings, this ceiling lamp can be used in many different types of rooms and corridors.
