PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Tolomeo Basculante Parete Wall Light by Artemide

The Tolomeo Basculante Parete wall light is part of the renowned [Artemide Tolomeo collection](#) designed by Michele de Lucchi & Giancarlo Fassina. The wall light is characterised by its straight, clean lines with a shade that has a classic silhouette and a streamlined design. The lampshade is made from either parchment or silk satin fabric, producing a warm glow that is diffused. The light flow can also be directed as the body and arm are movable and flexible.

The Tolomeo Basculante wall lamp can be used for many functions, as a reading or task light, a spotlight or simply as an ambient light. This wall lamp will look great in many spaces such as lounges, offices, dining and reception areas in both public spaces and homes. The iconic design and contemporary aesthetic makes it timeless and the choice of 2 subtle colours means you can find the right fit for your design scheme.

The Tolomeo Basculante features a **cord and plug** which requires a nearby power socket. Alternatively, the light can be hard-wired into the wall by a qualified electrician.
